DESIGN & BRAND MANAGEMENT MADE EASY

Whether you run a small business or work for a big company,
Lucidpress can help you create beautiful, on-brand content in no time.

SIGN UP FREE

By signing up you agree to our [terms & conditions](#)

or sign up with 

SIMPLE FROM THE START

Lucidpress removes the learning curve of traditional branding & design software.

Nothing to install

Say goodbye to the hassle of using desktop layout & design software. No more worrying about updates or sending files back-and-forth between your work and home computers. Lucidpress always online and just a click away.

Drag and drop

Our easy-to-use page layout & design software makes every aspect of the design process more intuitive. You can easily lay out text, photos, shapes, & videos for professional results that are sure to impress.

Easy import

Lucidpress integrates with your favorite tools to put your content at your fingertips. Import from Adobe InDesign, transfer text from Google Docs, or upload photos from Facebook, Dropbox and more.

Flexible sharing

Easily export your Lucidpress creation as a PDF, JPG or PNG. You can also push it to social media, embed it on your own webpage, or order high-quality prints directly from the editor.

TRY IT NOW

PERFECT FOR PRINT, DYNAMIC FOR DIGITAL

Jump-start your project with an extensive library of print-ready and digital templates.

Our ever-growing selection of print templates will help your content shine. Whether you need an [expertly designed product brochure](#) or an [all-new business card](#), Lucidpress can help.

Engaging your audience is easier than ever with our interactive templates. Videos, slideshows, scrolling areas, and clickable buttons create a truly immersive experience that makes your content pop.

Trustpilot

BUILT TO SCALE

From a team of 2 to an organization of 200,000, Lucidpress is engineered to meet your needs and grow with your business.

[SIGN UP FREE](#)

Real-time collaboration

Receive and implement feedback all in one place—or let your colleagues make changes themselves. With responsive comments and live chat, you can stop scribbling notes on printed drafts.

Customizable permissions

When you invite others to your documents, you have the flexibility to customize permission levels. One click lets you distinguish between those you want editing, commenting or just viewing.

Revision history

Robust revision history tracks the development of your projects. We'll show you who changes what, when—and if you don't see the why, it's easy to reverse changes.

Analytics

Analytics tracks key metrics about your published materials—how many people are clicking on a document, where they're located, and which platforms they're using to re-share the content. Visualize these insights to make smarter decisions.

INCREDIBLY AFFORDABLE

Spend less and get more with Lucidpress.

Replace expensive InDesign licenses

Lucidpress offers practicality and savings unmatched by Adobe InDesign—from an easy interface, to InDesign import, to lower subscription costs. Now you can outfit your entire department with Lucidpress without a second thought.

Save on printing costs

Share designs digitally via custom link, social media, or embed on your webpage with just a few clicks. Or, if print is what you're after, our convenient Print & Ship service will deliver perfectly printed documents straight to your home or office at just the right price.

EFFORTLESS BRAND COMPLIANCE

Lucidpress offers advanced enterprise features that make it easy for your entire organization to stay on-brand.

[LEARN MORE](#)

Brand asset management

Forget tracking down the latest logos and color codes. Save and update Brand Assets in your account so they're always close at hand when you're designing.

Template locking

Build brand-compliant templates, then lock down important images, text & colors. Now anyone can update the template without going off-brand or piling extra work on busy designers.

Snappy smart fields

Save time by using smart fields to pre-fill templates with your information. Perfect for cranking out business cards, flyers, brochures & other personalized marketing materials.

Review & approval

Stop rogue content in its tracks with document review & approval. Users can make edits and suggest changes, but you'll always have the final say before a document can be shared or published.

SECURE AND DEPENDABLE

Data encryption

Your data is safe with us. All data is transferred to Lucidpress servers using Secure Socket Layer (SSL) with AES-256 bit encryption. We securely store and frequently rotate encryption keys to further increase site security.

Robust backup

We store every version of your projects and automatically save your changes. Your documents are backed up hourly to multiple data centers—no more fretting about misplaced files or hard drive failures.

Secure data centers

Lucidpress is hosted from multiple secure data centers. We partner with industry leaders like Amazon Web Services to provide you with top-of-the-line storage and security.

HTML and CSS. Level 1. Creation of sites in HTML 5 and CSS 3

В рамках курса ведется работа над проектом «Создание веб-сайта. Наполнение сайта текстом, изображениями и видео».

Вы изучите основы языка разметки HTML, способы применения CSS и основы построения сайтов. Вы сможете сами создавать страницы, проектировать навигационное меню и другие элементы сайта..

Программа курса соответствует требованиям профессионального стандарта.

Курс рекомендован Российской Ассоциацией электронных коммуникаций «РАЭК». Его успешное прохождение поможет Вам систематизировать и закрепить имеющиеся знания. Это мощная база для дальнейшего изучения веб-технологий. Курс необходим всем, кто планирует овладеть престижной профессией интернет-маркетолога, веб-верстальщика, контент-менеджера, веб-мастера или веб-дизайнера.
